

César Cortés

Front End Developer

#JavaScript, React, Vue.js, Laravel, GitHub, WordPress.

EXPERIENCE

Front-End Developer

I have participated in **software development projects**, where I have collaborated in the design, implementation and testing of applications, **contributing to the success of the team**. My ability to solve problems and my ability to **adapt to new technologies** allow me to provide effective solutions in the development environment.

Virtual Data
April. 2022 - Ag. 2023

Product Owner

Collaborated with stakeholders to understand **customer and business needs**, translating them into clear and specific requirements for the product. I established and prioritized the functionalities of the product, creating and **managing the backlog** to guide the development based on the strategic objectives.

Desing Solutions
Janu. 2023 - June. 2023

WordPress Developer

Created and customized WordPress themes to adapt the design and appearance of the websites **according to the client's needs**. Developed **custom plugins** to add specific functionality to websites, **optimizing their performance and user experience**.
